The Plan does NOT cover periodontal disease, orthodontic treatment and relines due to tissue changes. Nor does it cover loss or trauma due to accidents (Falling down, negligence, abuse, auto accident, etc).

This guarantee will remain in effect and not be voided as long as patients keep their scheduled recall appointments as directed by the hygiene department. Hygiene appointments are scheduled normally once every six months, but could be more frequent due to control of active periodontal disease. Application of topical fluoride treatment and 4 X-rays is required a minimum of once a year for guarantee to remain in force.
